

## **Castlegem tripling Ashburn capacity!**

With March 2013, Castlegem have completed their second phase of expansion in their Ashburn, VA, PoP.

Due to high demand, Castlegem not only added bandwidth, but also considerable resources for all services offered on site, tripling available services, effective immediately: virtual private servers (VPS), dedicated servers, and colocation.

Clients will profit from Ashburn's proximity to major exchanges and important cities such as New York and Chicago. Latencies to these financial centres will prove ideal for all commodity and forex traders, and Castlegem offer special packages for clients dealing in those fast moving markets.

Our Ashburn PoP offers the most flexible colocation arrangements you can imagine. Backed by our grow as you need philosophy, clients will find themselves in a position where they are most able to adapt to the needs of their own customer base without having to commit for an indefinite period, and without the risk of tying up resources they need elsewhere.
